ARRIVING - AUTUMN

STEM Career Fair: More than Meets the Eye

The Career Center’s STEM Career Fair is the biggest career fair of the year! With over 150 companies interested in hiring our students, the fair offers a great opportunity to meet employers in a variety of industries from high-tech to pharmaceutical to consulting. There will be a luncheon on October 14 from 12-1 pm. Join us for this fantastic networking opportunity! More information to come.

Meeting Students Where They Are

UCI LCs are continuing their focus on the "Where I Am" Initiative in which they will visit and engage in dialogues with students where they are, either online or at their dorms. Please join them. They will provide updates about the Stay Connected Initiative and also share a few new ideas. LCs will be available to answer any questions. (See calendars for dates and times.)

UCDC Internship Program

Students who have not yet found and secured an internship for the Spring semester should come to this meeting. We will provide an overview of the internship program, answer any questions you may have, and present a number of internship opportunities currently available. The internship opportunities are in a variety of fields, including business, engineering, finance, and more.

What Does It Mean to "Be Career Ready?"

"Be Career Ready" is a term used to describe students who are prepared to enter the workforce after college. This includes having the necessary skills, knowledge, and experiences to succeed in their chosen field. It also involves having a clear understanding of one's career goals and being able to market oneself effectively to employers.

 definitions of what it means to be "Career Ready" vary, but generally the following are considered key characteristics:

- Education and Training
- Technical and Professional Skills
- Leadership
- Communication and Interpersonal Skills
- Adaptability

The Career Center offers a variety of resources to help students develop these skills, such as workshops, career fairs, and one-on-one advising sessions. It is important for students to actively seek out these opportunities and take advantage of them to increase their chances of landing a job after graduation.
